

# ADMINISTRATION OF MEDICINES POLICY

## 1. PURPOSE

The purpose of this policy is to ensure that OSG UK Lancaster Campus has safe and effective procedures in place for the administration of medicines, and that staff, students and parents are aware of these procedures.

## 2. SCOPE

This policy applies to all staff, parents and students who either have, or are responsible for the management of medication at the Campus.

## 3. DEFINITIONS

For the purposes of this Policy, the following definitions apply.

|          |   |
|----------|---|
| Children | For the purpose of this policy, this means all students at the Campus |
|----------|---|

## 4. POLICY STATEMENT

### 4.1 INTRODUCTION

The Board of Trustees has a statutory duty to make arrangements for students with medical needs under Section 100 of the Children and Families Act 2014. The policy and supporting documents are based on Department of Education statutory guidance (December 2015) 'Supporting pupils at Campus with medical conditions.'

### 4.2 POLICY PRINCIPLES

- 4.2.1 OSG UK Lancaster Campus will help to ensure students can:
- be healthy
  - stay safe
  - enjoy and achieve
  - make a positive contribution
  - achieve economic well-being
- 4.2.2 The Campus ensures all staff understand their duty of care to children and young people in the event of an emergency.
- 4.2.3 Staff receive on-going training and are regularly updated on the impact medical conditions can have on students. The training agenda is based on a review of current healthcare plans.
- 4.2.4 All staff feel confident in knowing what to do in an emergency.
- 4.2.5 This Campus understands that certain medical conditions are serious and can be potentially life threatening, particularly if ill managed or misunderstood.
- 4.2.6 This Campus understands the importance of medication being taken as prescribed.
- 4.2.7 All staff understand the common medical conditions that affect children at this Campus.

## 5. PROCEDURES

The Campus will follow procedures set out in the Health & Safety Policy for supporting students with medical needs and will utilise the associated forms available on the Southall's Safety Cloud.

### 5.1 ADMINISTRATION OF MEDICATION

- 5.1.1 The Campus understands the importance of taking the medication as prescribed.
- 5.1.2 All staff understand that there is no legal or contractual duty for any member of staff to administer medication or supervise a student taking medication unless they have been specifically contracted to do so. Where specific training is not required, any member of staff may administer prescribed and non-prescribed medicines to students under the age of 16 with parental consent.
- 5.1.3 The Trustees are responsible to ensure full insurance and indemnity to staff who administer medicines. The insurance policy includes liability cover.
- 5.1.4 Administration of medication which is defined as a controlled drug (even if the student can administer themselves) should be done under the supervision of a member of staff.

### 5.2 STORAGE OF MEDICATION

- 5.2.1 Safe storage – emergency medication such as Adrenaline Auto-Injector pens (EpiPens)
  - Emergency medication is readily available to students who require it at all times during the Campus day. If the emergency medication is a controlled drug and needs to be locked up, the keys are readily available. Stored in the phase 1 staff room or School office first aid drawer as applicable.
  - All students carry their own Adrenaline Auto-injector pens at all times and a spare kept. Kept in the school office filing cabinet.
  - Students are reminded to carry their emergency medication with them.
- 5.2.2 Safe storage – non-emergency medication
  - All non-emergency medication is kept in a lockable cupboard. Stored in the Junior staff room (junior students), Senior staffroom (ZT medication and LH insulin) or School office as applicable.
  - Students with medical conditions know where their medication is stored and how to access it.
  - Staff ensure that medication is only accessible to those for whom it is prescribed.
- 5.2.3 Safe storage – general
  - The LSCO ensures the correct storage of medication at Campus.
  - Three times a year the LSCO checks the expiry dates for all medication stored at Campus.
  - The LSCO along with the parents of students with medical conditions, ensures that all emergency and non-emergency medication brought into Campus is in the original container (except insulin) and clearly labelled with the student's name, the name and dose of medication and the frequency of dose. This includes all medication that students carry themselves.
  - Some medication may need to be refrigerated. All refrigerated medication is stored in an airtight container and is clearly labelled. This is in a secure area, inaccessible to unsupervised students.
  - It is the parent's responsibility to ensure new and in date medication comes into Campus on the first day of the new academic year

### 5.3 IN AN EMERGENCY

- 5.3.1 Relevant staff understand and are updated in what to do in an emergency for the most common serious medical conditions at this Campus.
- 5.3.2 In an emergency situation Campus staff are required under common law duty of care to act like any reasonably prudent parent/carer. This may include administering medication.
- 5.3.3 This Campus uses Individual Healthcare Plans to inform the appropriate staff (including supply teachers and support staff) of students with complex health needs in their care who may need emergency help. Supply staff are briefed on entry to the Campus; when undertaking their commissioned duties.
- 5.3.4 In the event of a student with an Individual Healthcare Plan needing to be taken to hospital, the Campus will ensure that a copy of the plan is provided for the hospital.
- 5.3.5 Information in Individual Healthcare Plans is also used to support transitional arrangements to another Campus and/or re-integration.
- 5.3.6 If a student needs to be taken to hospital, a member of staff will always accompany them and will stay with them until a parent arrives. This Campus will try to ensure that the staff member will be one the student knows. The staff member concerned should inform a member of the campus's senior leadership team.
- 5.3.7 All students with medical conditions should have easy access to their emergency medication. Items such as inhalers and Adrenaline Auto-injector pens are held by the student who must take the responsibility to have it to hand at all times.
- 5.3.8 Students are encouraged to administer their own emergency medication (e.g. Adrenaline Auto-injector pens) where possible and should carry it with them at all times unless it is a controlled drug as defined in the Misuse of Drugs Act 1971. This also applies to any off-site visits.
- 5.3.9 Students are encouraged to keep spare supplies of emergency medication. Stored in the phase 1 staff room or School office first aid drawer as applicable.
- 5.3.10 For off-site activities, a risk assessment is undertaken to ensure students needing medication still have access and a staff member is named as the responsible lead. The risk assessment also helps to identify any reasonable adjustments that need to be made.

### 5.4 MONITORING OF INDIVIDUAL HEALTHCARE PLANS

- 5.4.1 This Campus uses Individual Healthcare Plans to record important details about individual children's medical needs at Campus, their triggers, signs, symptoms, medication and other treatments. Further documentation can be attached to the Individual Healthcare Plan if required.
- 5.4.2 The procedure for the management of individual healthcare plans is set out in the Health & Safety Policy.
- 5.4.3 If a student has a short-term medical condition that requires medication during Campus hours, a medication form plus explanation is sent to the student's parents to complete.
- 5.4.4 The parents, healthcare professional and student with a medical condition, are asked to fill out the student's Individual Healthcare Plan together. Parents then return these completed forms to the Campus.
- 5.4.5 This Campus ensures that a relevant member of Campus staff is also present, if required to help draw up an Individual Healthcare Plan for students with complex healthcare or educational needs.
- 5.4.6 Individual Healthcare Plans are used by this Campus to:
  - Inform the appropriate staff and supply teachers about the individual needs of a student with a medical condition in their care.

- Remind students with medical conditions to take their medication when they need to and, if appropriate, remind them to keep their emergency medication with them at all times.
- Identify common or important individual triggers for students with medical conditions at Campus that bring on symptoms and can cause emergencies. This Campus uses this information to help reduce the impact of common triggers.
- Ensure that all medication stored at Campus is within the expiry date.
- Ensure this Campus's local emergency care services have a timely and accurate summary of a student's current medical management and healthcare in the event of an emergency.
- Remind parents of students with medical conditions to ensure that any medication kept at Campus for their child is within its expiry dates. This includes spare medication.

## 5.5 UNACCEPTABLE PRACTICE

5.5.1 Our staff recognise that it is not acceptable practice to:

- Prevent children from easily accessing their inhalers and medication and administering their medication when and where necessary.
- Assume that every child with the same condition requires the same treatment.
- Ignore the views of the child or their parents; or ignore medical evidence or opinion (although this may be challenged).
- Send children with medical conditions home frequently or prevent them from staying for normal Campus activities, including lunch, unless this is specified in their individual healthcare plans.
- If the child becomes ill, send them to the Campus office or medical room unaccompanied or with someone unsuitable.
- Penalise children for their attendance record if their absences are related to their medical condition, e.g. hospital appointments.
- Prevent students from drinking, eating or taking toilet or other breaks whenever they need to in order to manage their medical condition effectively.
- Require parents, or otherwise make them feel obliged, to attend Campus to administer medication or provide medical support to their child, including with toileting issues.
- Prevent children from participating or create unnecessary barriers to children participating in any aspect of Campus life, including Campus trips, e.g. by requiring parents to accompany the child.

## 5.6 COMPLAINTS

5.6.1 Complaints about this policy and/or procedures should be dealt with in accordance with the Campus's published Complaints Policy.

## 6. GUIDELINES

- [Guidance on the use of adrenaline auto-injectors in Campuses](#) – September 2017
- [Supporting pupils at Campus with medical conditions](#) – December 2015
- Section 100 of the Children and Families Act 2014.
